

SKILLTECH ACADEMY PRESENTS

AI Skills Mastery.

Master AI for Work, Business & Income

One-on-one mentorship that turns everyday AI tools into real productivity, smarter businesses and new income.

Kenya-Focused • Globally Relevant • 1:1 Mentorship

CONTACT: SKILLTECH ADMISSIONS — CALL 0797931551

Real AI skills. Real work. Real income.

Hands-on Mentorship

Work alongside a trainer who reviews every prompt, output and workflow until AI becomes second nature.

Systems, Not Hacks

Repeatable AI workflows for content, automation and analysis that save hours and scale income.

Kenyan Market, Global Standards

AI for M-Pesa businesses, WhatsApp selling and local clients, built on global best practices.

Built for people ready to work smarter with AI.

- Business owners automating daily operations
- Freelancers offering AI-powered services
- Students building future-proof careers
- Creators producing content faster with AI
- Professionals boosting output and income

Not for you if...

- You want shortcuts without real practice
- You won't complete hands-on AI projects
- You can't commit weekly practice time
- You expect income without applying skills

Ten modules. Curiosity to income.

01

AI Foundations

Understand how AI works, key tools, ethics and where it creates real value.

02

Prompt Engineering

Write precise prompts for ChatGPT, Gemini and Claude that deliver usable results.

03

AI Content Creation

Produce posts, articles, images and video scripts in a fraction of the time.

04

AI Design & Video

Create brand visuals, presentations and short videos with leading AI tools.

05

Workflow Automation

Automate emails, reports and WhatsApp replies with Zapier, Make and AI agents.

06

Business Analytics

Turn sales, M-Pesa and customer data into clear insights and smart decisions.

07

AI for Business Ops

Apply AI to customer service, marketing and operations for local businesses.

08

Career Growth with AI

Build an AI portfolio, sharpen your CV and stand out to local and global employers.

09

Advanced: AI Monetization

Package and price AI services, digital products and freelance offers that sell.

10

Advanced: AI Agents & Scale

Build custom AI assistants and scale your skills into a sustainable AI business.

You don't just learn. You build.

01 Plan — Map your goals and the tasks AI can transform with your mentor.

02 Create — Produce live content, visuals and prompt libraries for real use.

03 Automate — Deploy working AI workflows for your job or business.

04 Analyze — Measure time saved and results, then refine for more income.

Every AI project assignment is mandatory — completing them is how you graduate.

Choose your pace and depth.

Starter

KES 2,500

- 4 weeks
- Modules 1–4: foundations, prompts, content, design
- Best for AI beginners

RECOMMENDED

Professional

KES 4,000

Learn where you work best.

SkillTech Centre

In-person, one-on-one AI sessions at our training centre with full equipment support.

Live Online

Real-time mentorship via video call with screen-shared AI projects — join from anywhere.

Private Location

Your trainer comes to an approved home or office location of your choice.

Sessions: 2–3 per week, 2 hours each, scheduled around you.

Payment: deposit to reserve, balance in agreed instalments via M-Pesa or bank.

Earned by results, not attendance.

- Complete all mandatory AI project assignments
- Pass practical AI skills assessments
- Deploy a working AI workflow or automation
- Present your AI portfolio & income plan

Top performers unlock advanced mentorship, AI project collaboration, and paid client referral opportunities.

Five steps to your first session.

- 01 Submit your application
- 02 AI goals consultation
- 03 Choose your package and mode
- 04 Pay deposit to secure your spot
- 05 Get assigned your personal trainer

Seats are limited.

Apply early — your deposit locks in your trainer and preferred schedule.
